BnF

Agenda

- Context of digital assets at BnF
- From archiving to preserving
- Crafting a new organization
- Sharing data and workflows
- Handling the volume
- Conclusion

The National Library of France

An autonomous public establishment

2 200 agents and dozens of professions, a budget of approx. 230 M€

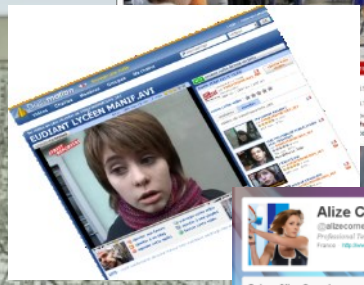
Local, national and international missions

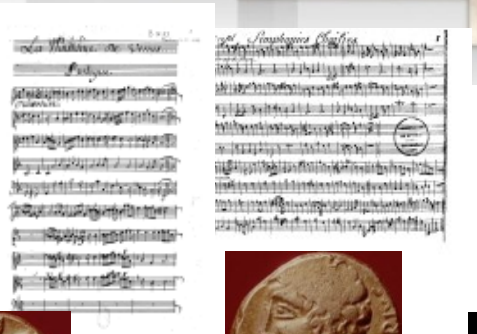
About 1M readers per year, 300 000 visitors to the exhibitions

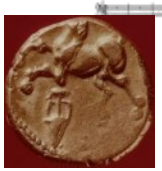
Large collections to manage

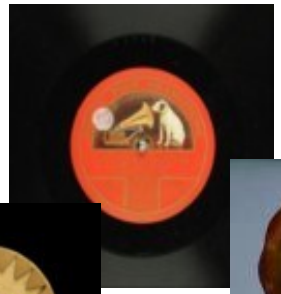
- More than 14M books
- More than 30M posters and photos
- More than 250.000 manuscripts
- More than 1M audiovisual material
- “French” Web legal deposit

Variety of the collections

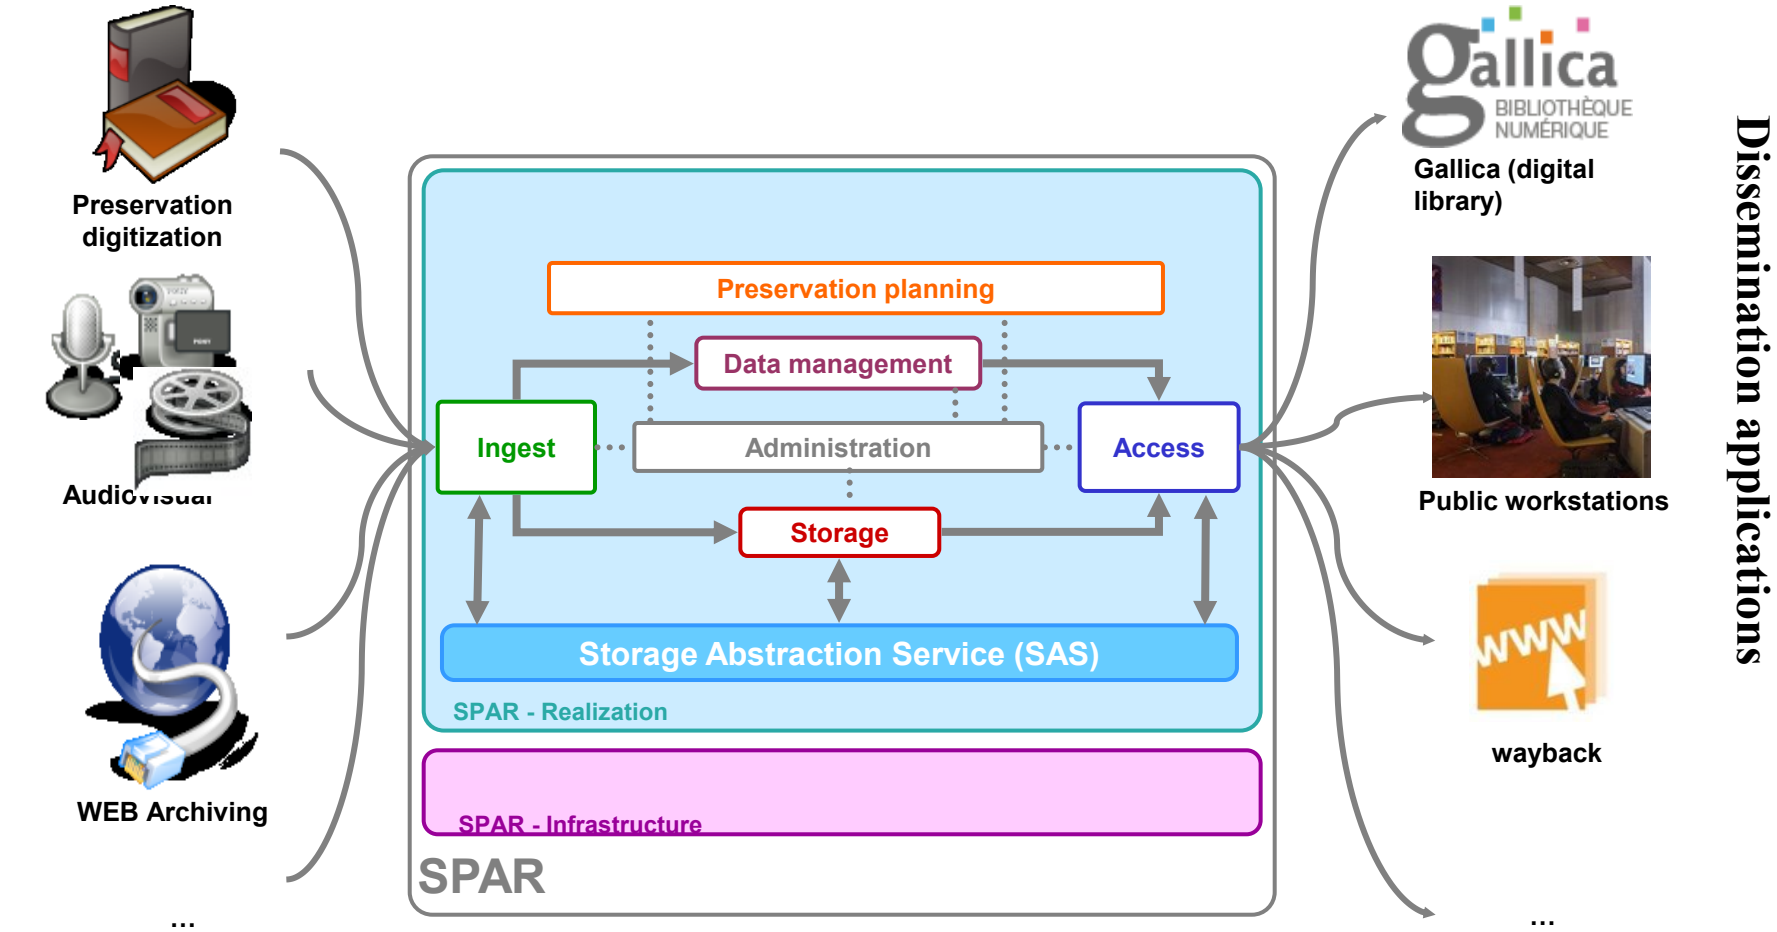








Digital preservation at BnF: SPAR



Some facts about SPAR (at 22/01/2019)

- Operation begins: may 2010
  - Current workflow of BnF's mass digitization program
  - Distributed storage over 2 sites
- 9 055 476 packages archived
- 386 830 827 data-objects (files)
- > 3.7PB (=3 785TB) of raw data
- > 5.2 billion RDF triples (elementary metadata)
- Very large manuscripts have been ingested (packages with size of 100GB)
- Two technological migration already made in 2012 and 2017: new tape generation
- Available tracks: monographs, periodicals, still images, audio, video, web archiving, office documents, ebooks, third-party archiving

- Crafting a new organization
- Sharing data and workflows
- Handling the volume
- Conclusion

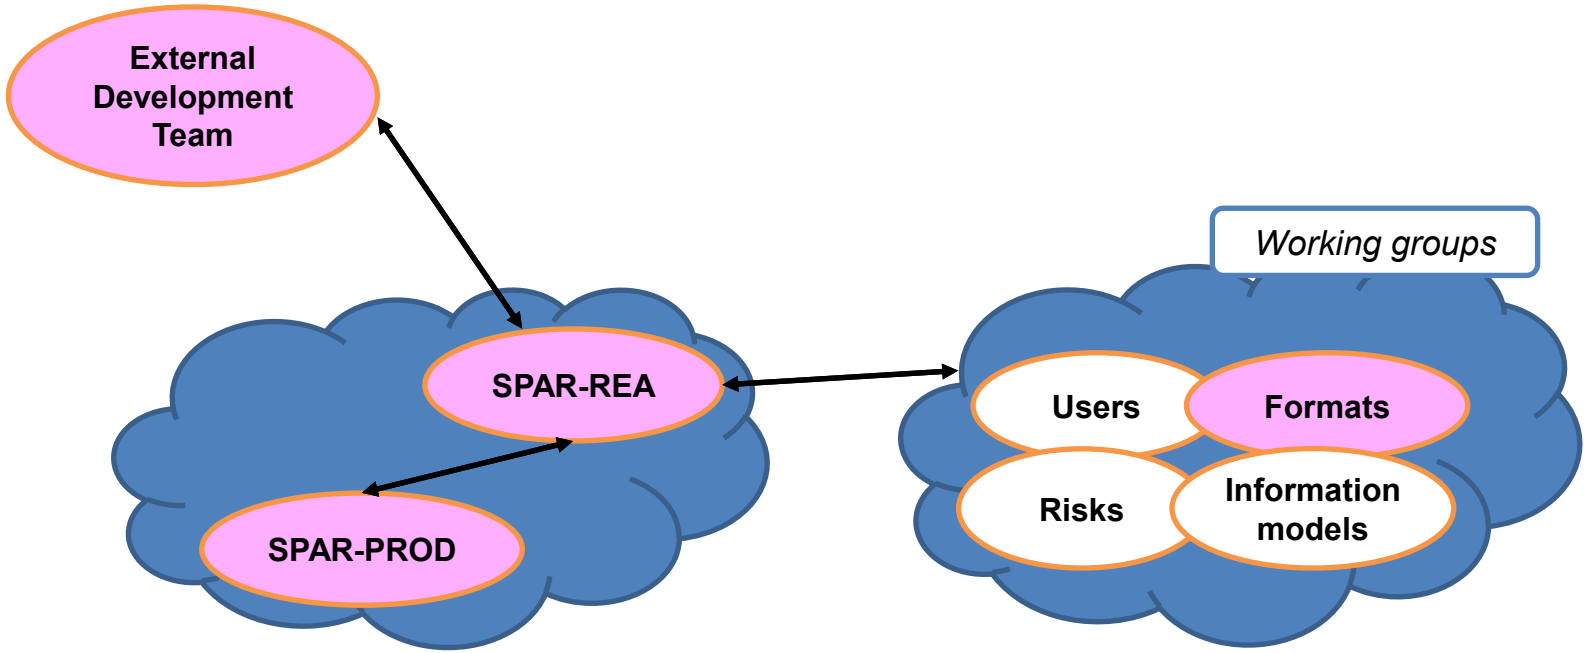
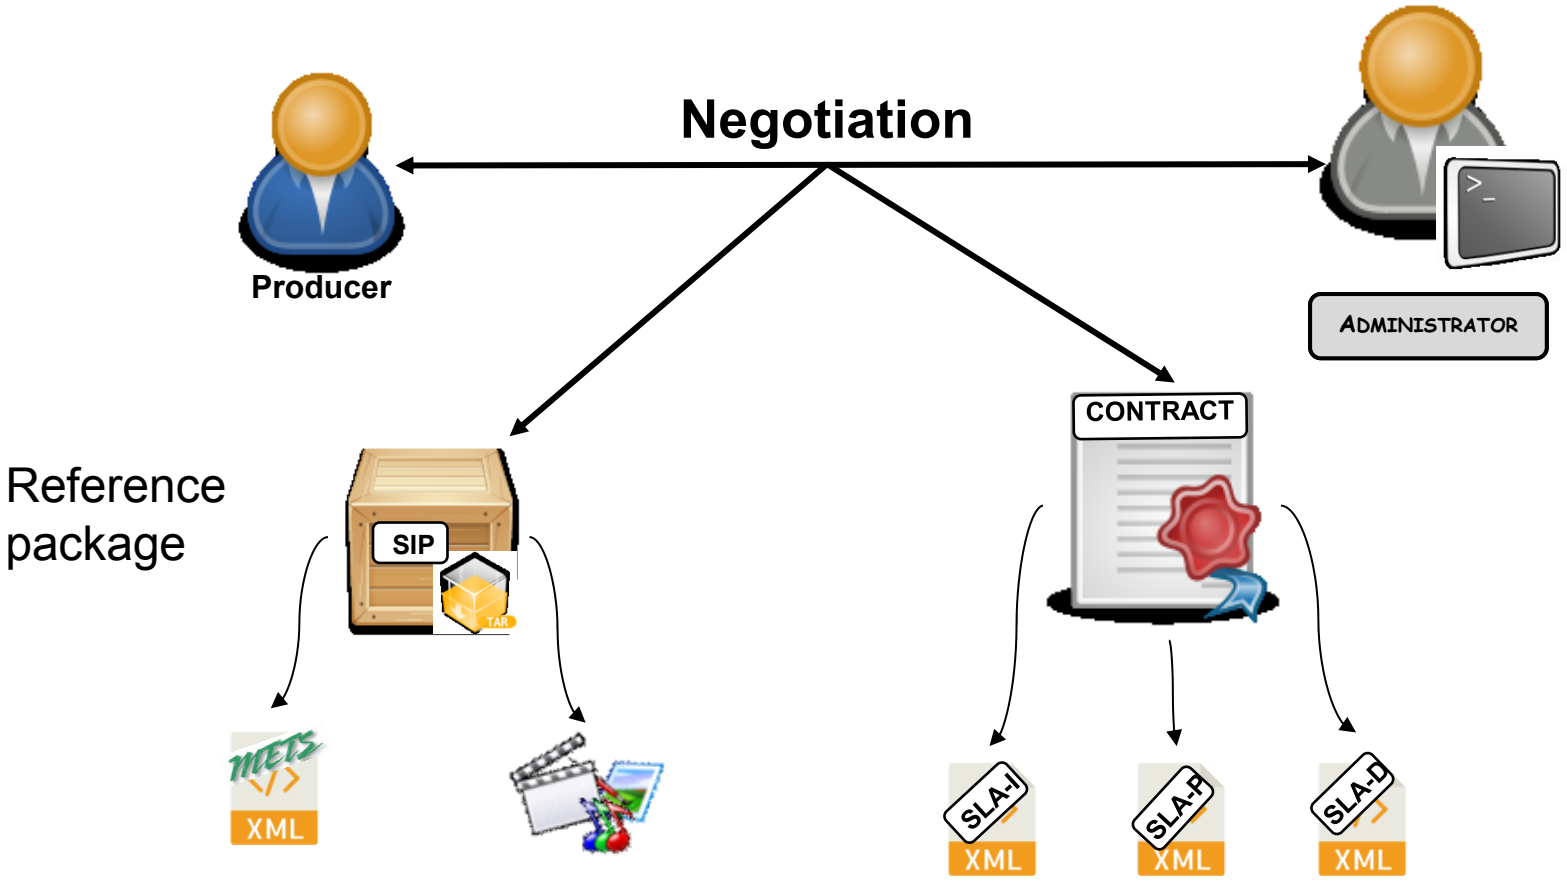
Initial project organization



Track negotiation: a contract



Reference package

Evolution in the organization

The library is building a new organization to interact with the Archive:

- census of preservation experts (expertise everywhere in the library)
- each track has a designated manager from the business units, to negotiate the SLAs and define the priorities
- the IT department is responsible for the data in the “digital stacks”

Most importantly, preservation is now part of every new digital project

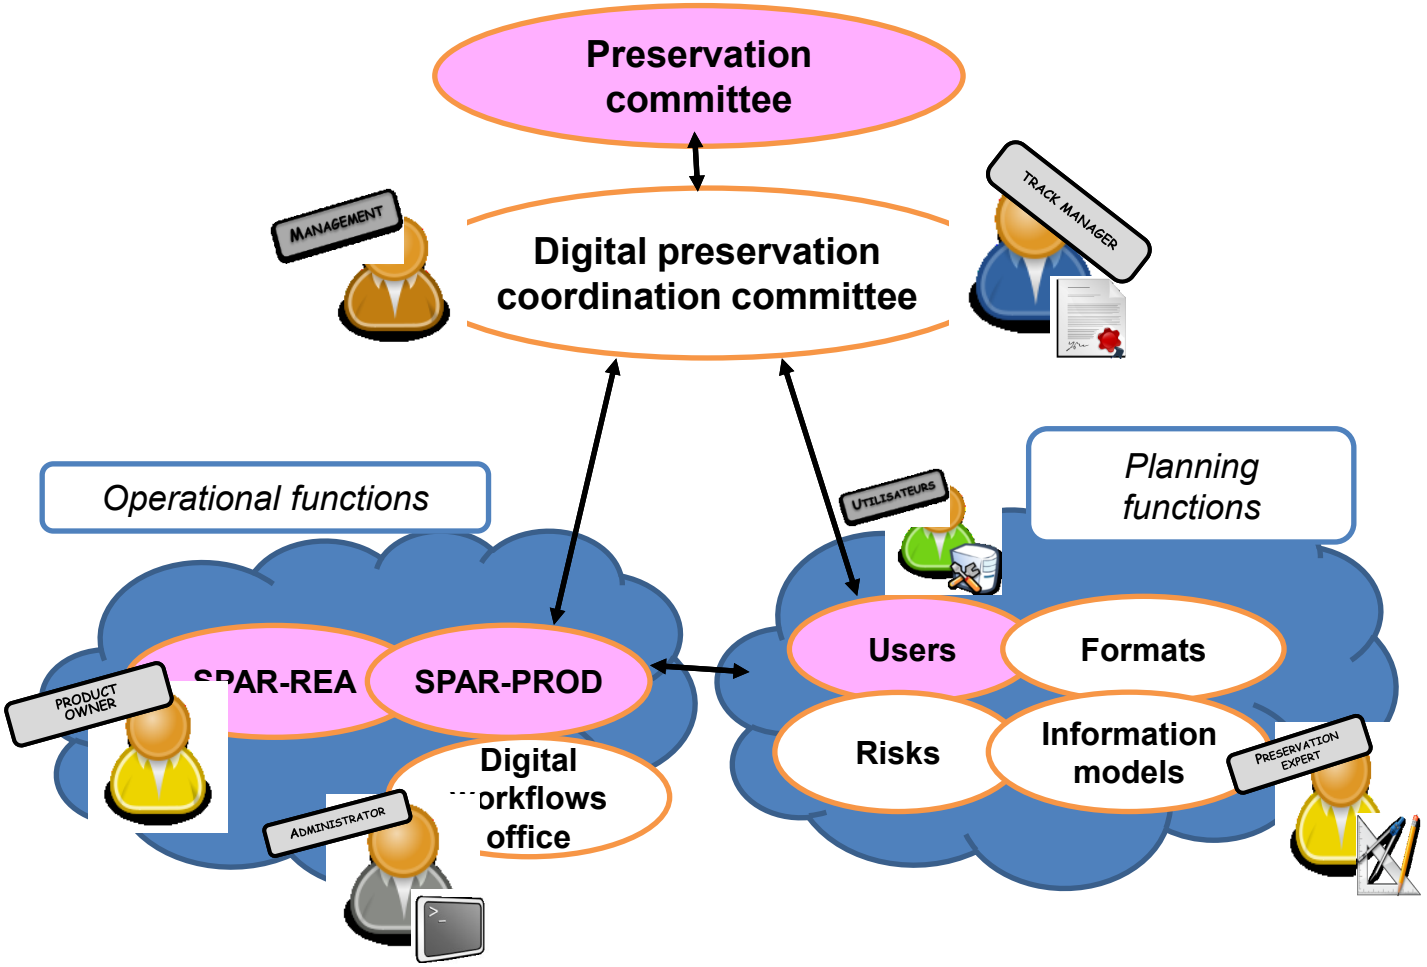
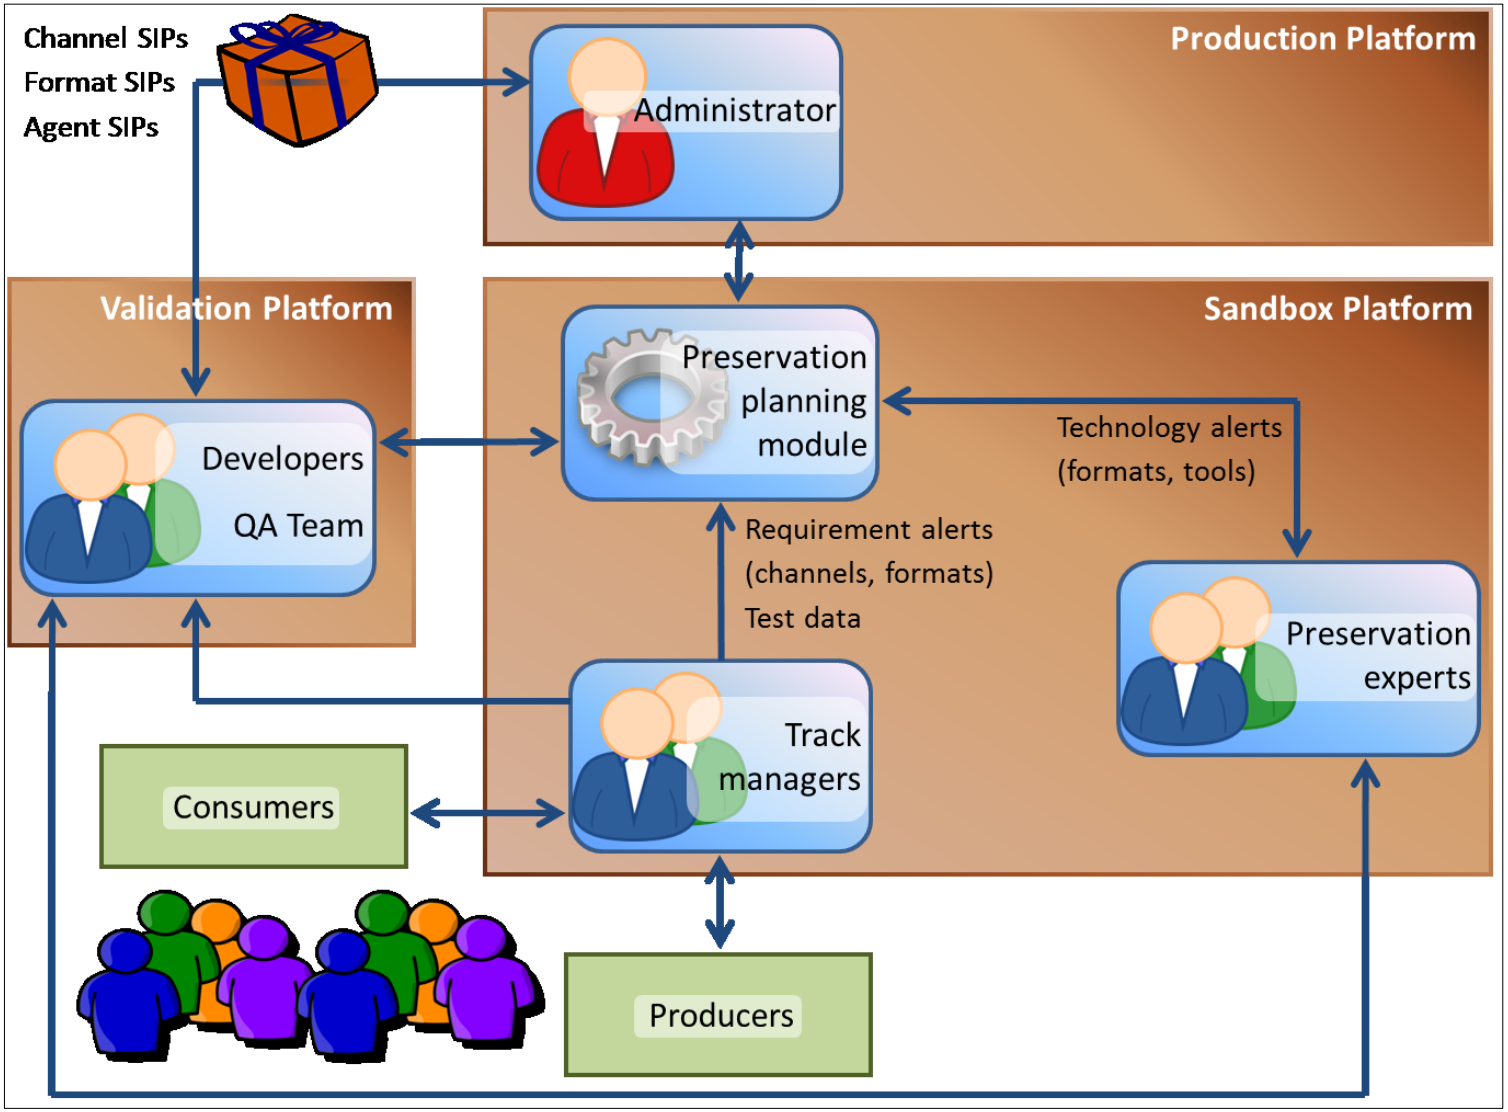
RISKS & EMERGENCY PLAN

Preservation organization



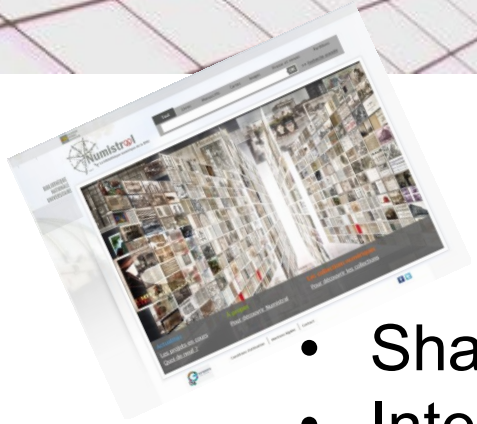
Preservation as a core process

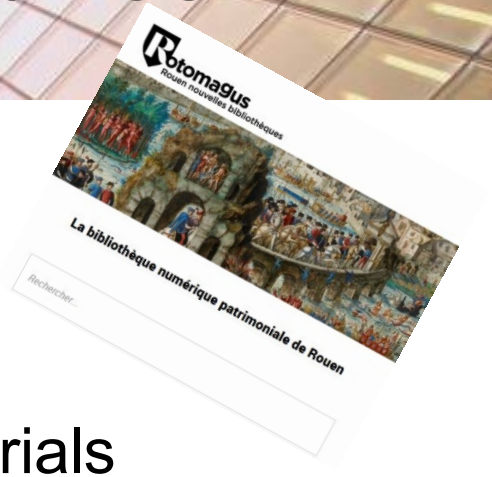


Agenda

- Context of digital assets at BnF
- From archiving to preserving
- Crafting a new organization
- Sharing data and workflows
- Handling the volume
- Conclusion

Collaborating with other libraries





- Sharing digitization
- Integrating already digitized materials
- Preserving the digital materials on their behalf
- Sharing the dissemination with Gallica
- Allowing for a specific design: ‘White mark Gallica’

« BnF – Archivage Numérique » offer

- **Arrangements are planned for integration,** monitoring and retrieval of the data:
  - ✓ Custom made by BnF team
  - ✓ Or by the « Espace Coopération» extranet of the BnF
- **Media provided** depending on the need:
  - On 2 tapes: access can take several hours
  - On 2 tapes and 1 disk: access in minutes, availability during working hours
  - On 2 tapes and 2 disks: access in minutes, availability 7d/7.
- **A standard contract** defines the Service Level Agreements (volume, duration, formats, metadata, rules, …)

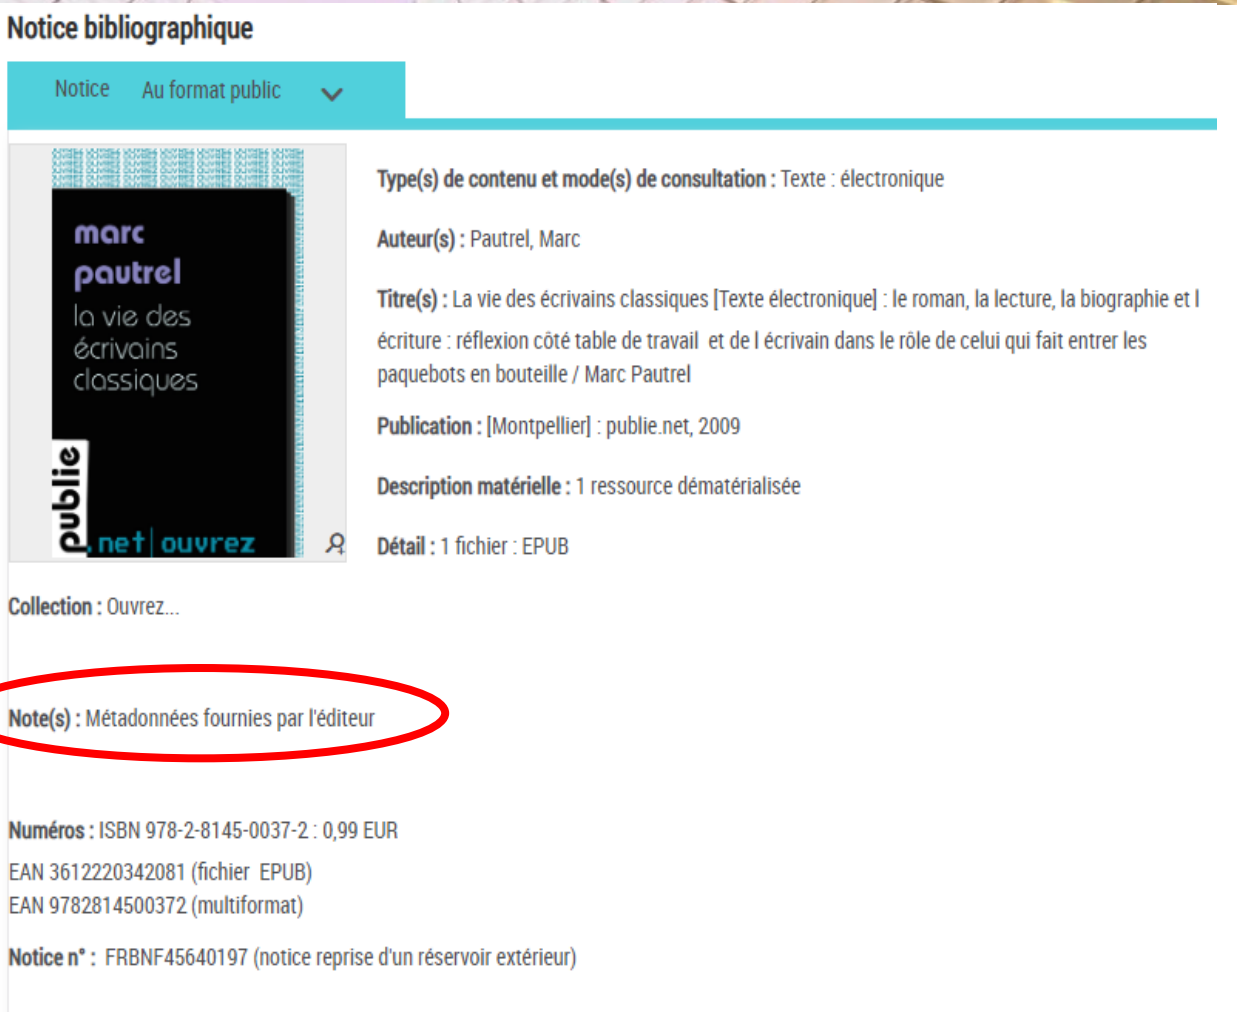
Third-party archiving costs

- It is a participation, at the best cost, in a spirit of sharing.
- Standard price lists are based on:
  - The way of downloading the data to archive (custom or extranet)
  - The kind of media (tapes, disks)
  - The volume to store (from 1 to 50 TB)
  - The duration of the initial contract (3, 5 or 8 years)

- The cost is derived from the service level of agreement.

Scalability in metadata acquisition

- Direct delivery from the publishers with dedicated B2B workflows



Notice bibliographique

Notice Au format public

Type(s) de contenu et mode(s) de consultation : Texte : électronique

Auteur(s) : Pautrel, Marc

Titre(s) : La vie des écrivains classiques [Texte électronique] : le roman, la lecture, la biographie et l écriture : réflexion côté table de travail et de l écrivain dans le rôle de celui qui fait entrer les paquebots en bouteille / Marc Pautrel

Publication : [Montpellier] : publie.net, 2009

Description matérielle : 1 ressource dématérialisée

Détail : 1 fichier : EPUB

Collection : Ouvrez...

Note(s) : Métadonnées fournies par l'éditeur

Numéros : ISBN 978-2-8145-0037-2 : 0,99 EUR

EAN 3612220342081 (fichier EPUB)

Agenda

- Context of digital assets at BnF
- From archiving to preserving
- Crafting a new organization
- Sharing data and workflows
- Handling the volume
- Conclusion

Economical aspect: volume

Initial digitization
B&W - 300dpi -TIFF G4
1 page ~ **200KB**

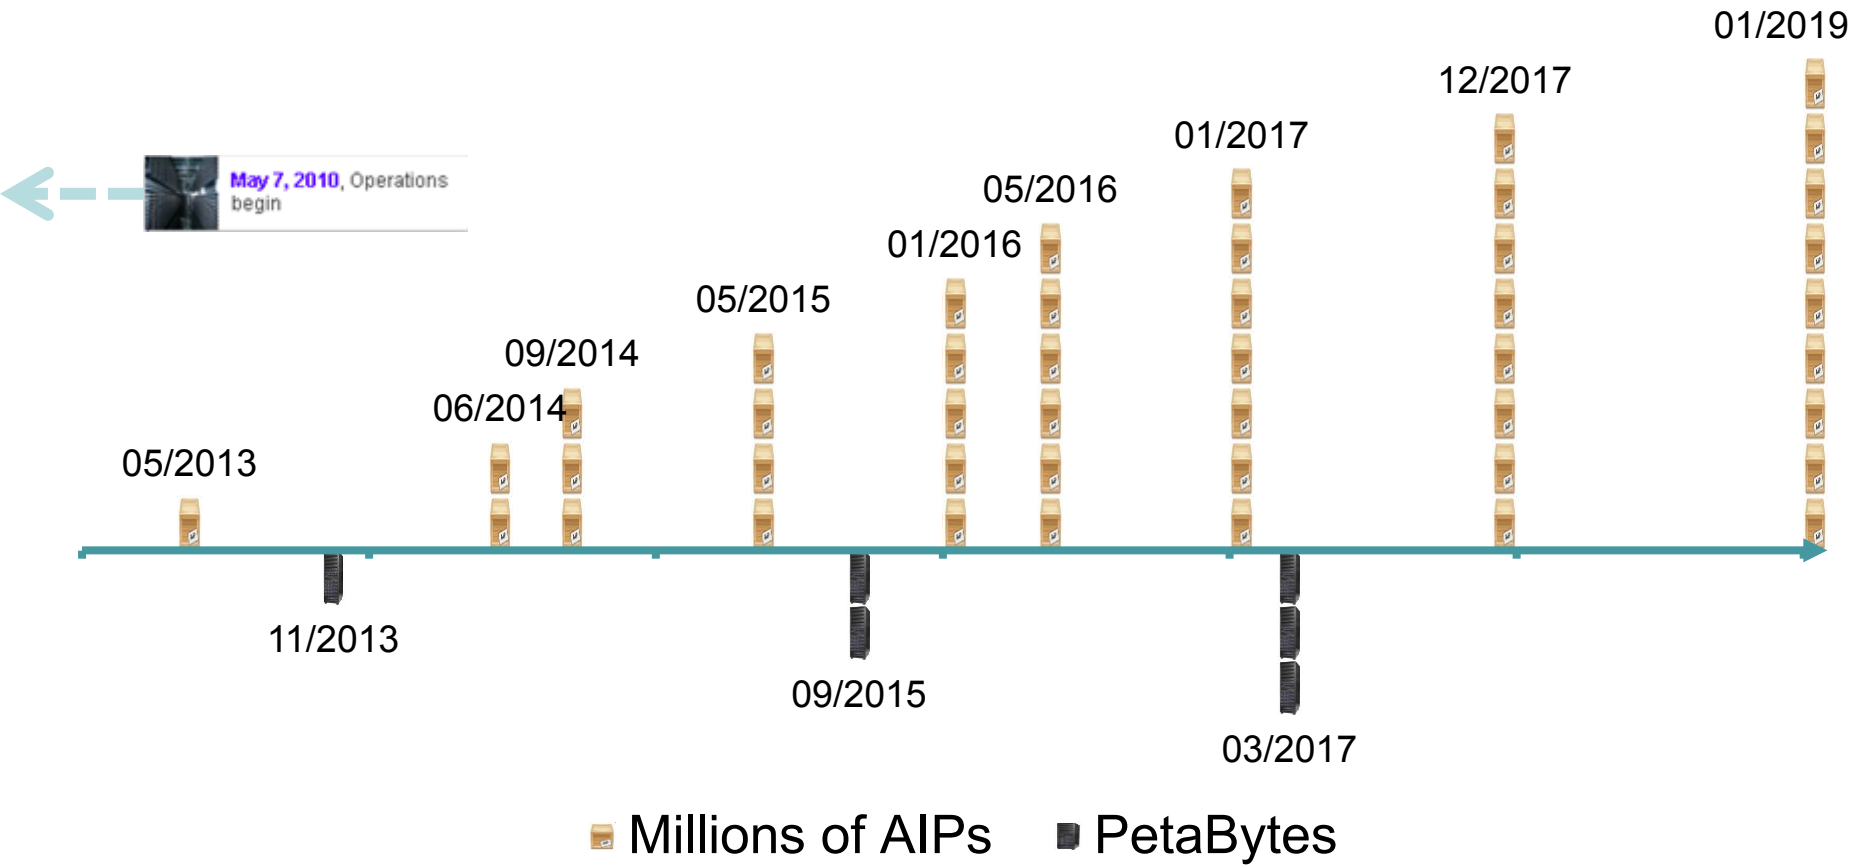
Current digitization
Color (24 bits) – 400dpi – uncompressed TIFF
1 page ~ **80MB**

Factor x400 !!!

Current digitization
Color (24 bits) – 400dpi – **JPEG 2000**
1 page ~ **20MB**

Divided by 4

Timeline of the growth



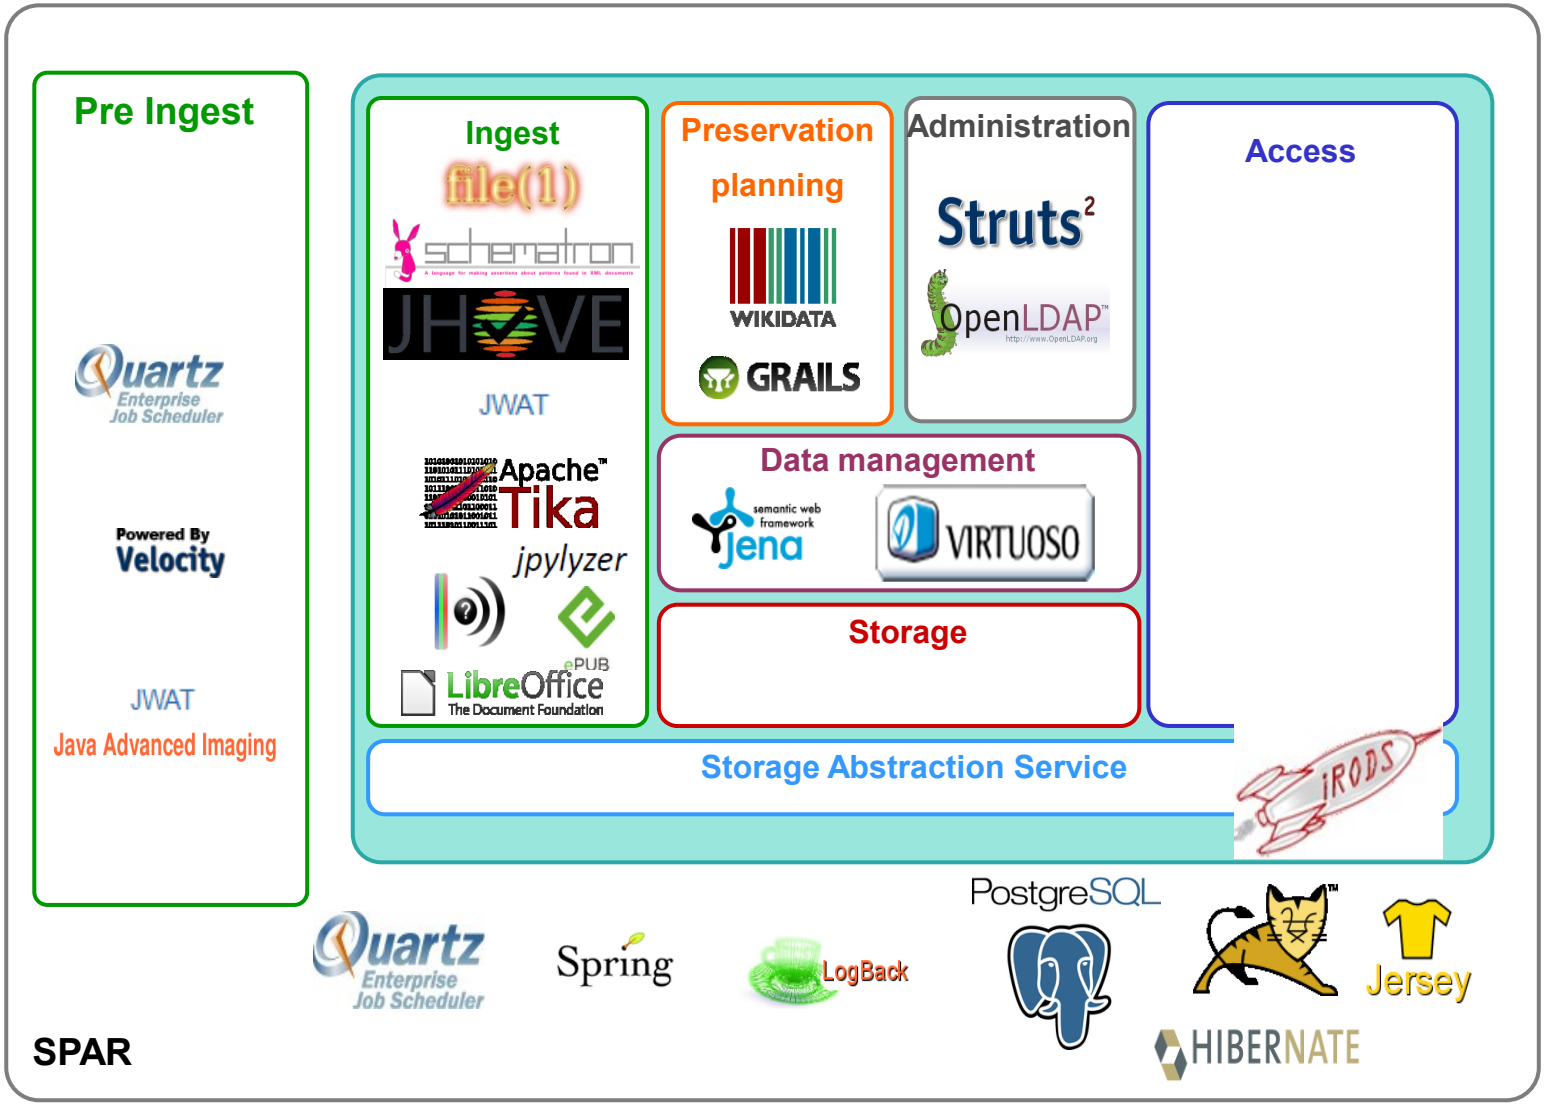
Economical aspect: storage infrastructure

Cloud still not an option: legal issues, recurrent cost, data transfer issue when moving from one provider to another (escape plan)

Hard-disk only for dissemination

Tapes remain economically viable (10 times less costly than hard-disk) and power efficient

Leveraging Open Source community effort



Agenda

- Context of digital assets at BnF
- From archiving to preserving
- Crafting a new organization
- Sharing data and workflows
- Handling the volume
- Conclusion

Conclusions

For the digital preservation to be a sustainable activity, it needs:

- Involvement of the institution (core mission, skills, training, …)
- Sharing with the ecosystem
- Building a business plan
- Always, anticipate risks

Thanks for your attention
